

FABSTRUCTURES INFRATECH & ENGINEERING PVT LTD

PEB Warehouses & Industrial
Sheds Contractors & Developers

WHO WE ARE:

Fabstructures Infratech & Engineering Pvt Ltd is a reputed private limited firm with expertise in the field of pre-engineered steel buildings construction. Our scope of work covers design, fabrication, supply, transportation, erection and sheeting of PEB structural steel building with accessories along with the complete Civil scope of works for the project as necessary in South India. With two decades of rich experience in this field and with a dedicated team of engineers, we provide prompt services and deliver quality engineered infrastructural projects to various esteemed organizations in Tamil Nadu. Our Head Office is located in Chennai, Tamil Nadu and our factory works located at Thodukadu Village, Thiruvallur Dt, we strive to successfully operate & deliver Grade-A Turnkey projects (which includes the complete Civil, PEB, MEP works) and also undertake PMC Projects for companies/start-ups looking to set shop in Tamil Nadu.

ABOUT US FABSTRUCTURES INFRATECH & ENGINEERING

Our Chairman & Managing Director, Captain. S.M. Hussain is the one of the earliest entrants and pioneers in the bringing commercial PEB Warehouses & Commercial PEB Structures in Chennai Tamil Nadu. Under his strong guidance & technical acumen & our team of engineers successfully delivered one of the earliest commercial Pre Engineered Structures in Chennai Tamil Nadu for Mahindra Automobiles in the year 2009 marking our very first project.

Captain. Hussain as he's fondly known is seasoned professional who was a former Civil Pilot Passenger Aircraft's who later shifted his career into the field of Construction & Real Estate.

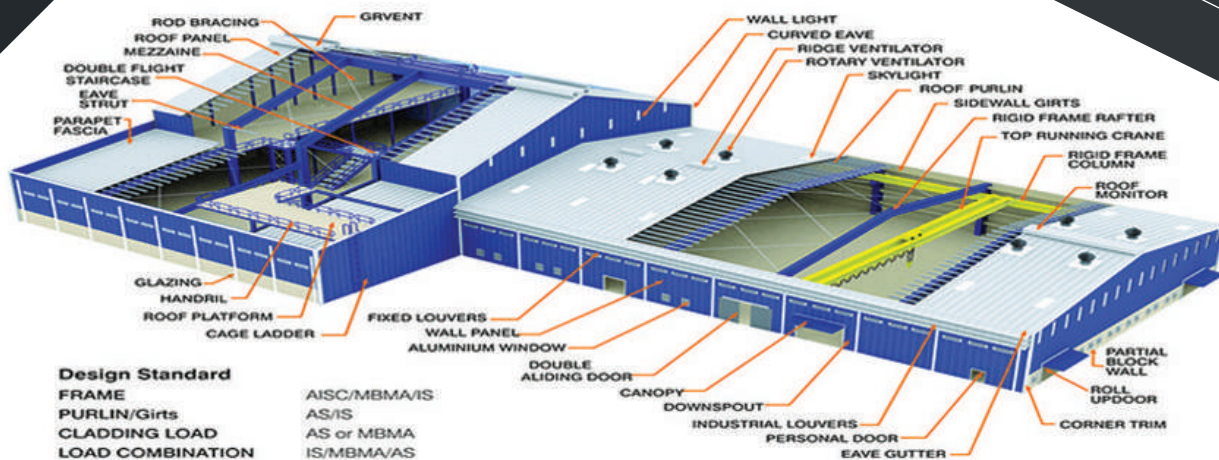

His first project began with his own Home built in Chennai back in 1995. Since then, Capt Hussain has successfully taken up & completed a plethora of Civil Projects ranging from Residential, Commercial Construction right up to Pre-Engineered Buildings Warehouse Projects.

Under his vision, Fabstructures Infratech & Engineering Pvt Ltd with its team of vibrant engineers and strong technical support of extended engineering divisions, have pioneered into and are one of the early Entrants in Chennai into the field of Pre-Engineered Buildings, Warehousing Projects along with Turnkey Infrastructure Project, Planning, Consulting and Execution and have successfully completed various Projects in Tamil Nadu.

OUR VISION

Our scope of work covers design, fabrication, supply, transportation, erection and sheeting of PEB structural steel building with accessories

CONCEPT OF PRE- ENGINEERED BUILDINGS

A pre-engineered steel building is a modern technology where the complete designing is done at the factory and the building components are brought to the site in CKD (completely knock down condition) and then fixed/jointed at the site and raised with the help of cranes.

APPLICATIONS:

- Factories
- Warehouses
- Railway Stations
- Power Generation
- Industrial Buildings

ADVANTAGES:

- Economical.
- Durable & Ergonomical : An efficiently designed pre-engineered building can be lighter than the conventional steel buildings by up to 30%.
- Time Efficient.

Why Fabstructures Infratech & Engineering Pvt Ltd for PEB Warehouse Projects ?

- Quality Assurances
- On Time Project Execution & Handover
- Efficiently Designed.
- Strong Technical acumen in turnkey Civil & PEB
- Project execution.
- Impeccable & seamless Project Planning.
